United States military Veterans are far more likely to hold non-degree certificates and certifications. Additionally, the Veteran population more commonly has education and training experience outside of traditional educational institutions. This leads to the issue of Veterans and active military personnel not having equal opportunities to demonstrate the knowledge, skills and abilities learned during their military experience. Learn how Retrieve is creating educational opportunities for all Veterans and active military personnel.

### Knowledge & Skill Recognition
- Career-relevant and soft skills can now be showcased through interactive assessments and assignments
- All courses offer Certifications that can be posted and shared to Social Media
- Enroll in courses that are accredited by top universities around the U.S.

### Accessibility & Availability
- Multiple modalities allow Veterans to consume material in the method that best suits them
- Veterans and active military personal can access courses and trainings where ever they are in the world, and on any device
- Easily enroll in courses right from the public course storefront

### Credential Transferability & Stackability
- Courses are integrated into Prior Learning Assessments - allowing Veterans to transfer credits over to top university
- Competency can easily be measured and understood in any educational context
- Credits earned from individual courses are stackable and can be used towards other trainings, programs and full degrees
